

ORACLE PRIMAVERA EDUCATION SERIES

Course Title: RP001 Primavera P6 Overview and Reporting
Course Level: Basic
Course Duration: 1 Day
Course Audience: Program and project managers, planners and schedulers
Prerequisite(s): None

Course Summary

This course is designed for those who wish to gain an appreciation of Primavera P6 tools but do not require a detailed understanding of the planning and scheduling processes.

Delegates have the opportunity for hands on tuition and are taken through the basic aspects of interrogating plans.

At the completion of the course, delegates will be able to create and print basic layouts and reports utilising both the report wizard and report writer tool.

Course Topics

At the completion of this course, delegates will be able to...

- describe the Primavera P6 architecture at a high level
- understand how to create, develop and manage plans and activities
- use Tracking Layouts
- understand Project Layouts
- view Resource Assignments
- create and view Reports
- understand how to import and export data to/from Primavera P6
- publish and print reports
- understand how to create and view the Project Web Site
