Course Duration	2 days
Course Delivery	Classroom
Course Audience	Non corporate learner , private individual, freelance planners, students
Prerequisite(s)	Project planning/management fundamentals (desirable)Working knowledge of Windows™
Courseware Author	Oracle University

COURSE SUMMARY

The Oracle University Workforce Development Program (WDP) partnership with RPC UK Limited enables freelance planners, individuals and students to receive official Oracle University Primavera curriculum training affordably and conveniently without compromising on quality.

Oracle University launched WDP to address the continued global information technology (IT) worker shortage and need for accessible and low cost IT skills training. The purpose of WDP is to reach the individual, non-corporate learner who is seeking low cost access to Oracle training.

This course provides hands on training for Oracle's Primavera P6 client/server solution, leading participants through the entire project life cycle, from planning to execution.

Topics include adding activities, assigning resources, and creating a baseline. Participants also gain a thorough background in the concepts of planning and scheduling. All workshops and instruction stress the three basic elements of project management: schedule, resource and costs.

LEARN TO

- Schedule a project
- Add activities
- Schedule a project
- Assign resources
- Adjust project schedule
- Create reports

COURSE OBJECTIVES

- Understand data structures
