# DELIVERING INTEGRATED PROJECT CONTROLS

**As an authorised Primavera partner, RPC has been helping clients to deliver their projects successfully since 1992.**

RPC established its place in the industry providing Primavera P3 training courses. Thirty years on, we now offer the full end-to-end lifecycle for solutions based on the world-leading Oracle Primavera EPPM software products: licence provision, solution architecture, implementation, integration, hosting, training and support.

Our project controls solutions are underpinned by unrivalled industry expertise within our team and a unique collaborative way of working with clients to create a holistic environment in which programmes and projects are delivered on time and within budget.

# OUR COMPANY

**RPC is very proud to be 100% employee owned, since transitioning to this ownership model in 2023.**

Employee ownership gives every member of our growing team an equal stake in the business, reinforcing and fostering the exemplary team ethos and high level of client satisfaction of which we were already very proud.

When you do business with RPC, you know that every member of the team cares. It's our company and it matters to each one of us that we deliver the right service for every different client.

You'll find us all striving to do better, generate new ways of working and develop innovative ideas that will help our company to grow. We think it sets us apart and our clients agree.

owned.**

# OUR CLIENTS

The ability to integrate powerful and customisable reporting tools with the world-leading Oracle Primavera project planning and scheduling software makes us the solution provider of choice for clients in a wide range of industry verticals, in both the public and private sectors.

Our clients range from blue chip organisations to SMEs, but we pride ourselves in delivering solutions to a consistently high standard that makes no such distinction.

We have established a particular focus in the Construction and Engineering, and Aerospace and Defence sectors, where our innovative Solution Sets built around Oracle's Primavera Unifier are transformative in helping our clients to ensure compliance with regulatory requirements in contract management, fund management and beyond.

# INDUSTRY CREDENTIALS

RPC is an established Oracle Partner. We're proud of our close working relationship with Oracle, which includes the sharing of expertise in the development of software products and updates.

We have been accredited for several OPN Tracks – including the Oracle Cloud Sell and Oracle License and Hardware Tracks – based upon offering products across the whole Primavera range.

In addition to this, we are an Oracle NetSuite Alliance Partner.

We also hold the following industry accreditations:

# WHAT OUR CLIENTS SAY

*“RPC’s knowledge and bespoke approach was the keystone of our successful implementation.”*

# PRODUCTS AND SERVICES

## SOFTWARE

RPC is an accredited Oracle Cloud Sell and Oracle License and Hardware partner, supplying licences for the full range of Oracle Primavera tools within a wider portfolio of installation, integration, training and support.

## SUPPORT

RPC offers Oracle Primavera application support for users. We augment the Oracle Primavera licence support and help clients to get the most from their software.

## CONSULTANCY

Our team of integration and implementation experts is skilled in shaping a project controls solution that meets each client's unique requirements.

**HOSTING** RPC's Hosting service is a complete Oracle Primavera P6 environment based on the market-leading Oracle Cloud Infrastructure platform. With this, we can offer faster P6 implementation than ever before, on proven Cloud Services technology.

## ACCELERATED SOLUTIONS

Our out-of-the-box Unifier solutions enable users to accelerate their deployment of the tool and maximise the capability of their software. Each can be customised as required. Together, they build into a powerful, multi-functioning integrated project controls solution.

**TRAINING** RPC supports professional development with a full range of training courses in the Oracle Primavera toolset, learning support that extends beyond the classroom and generic project management skills courses.

# SHAPING SOLUTIONS

**No two solutions are ever the same. Our team of integration and implementation experts work with our clients to shape a project controls solution that meets their own unique requirements.**

In recent years we have developed a suite of Oracle Primavera Unifier-based solutions for a number of project controls disciplines, including contract management for NEC4 and FIDIC, Earned Value, Risk Management and more. Created as modular solutions compatible with Oracle's new Unifier Accelerator product, these can be deployed out of the box or with minimal configuration to get you up and running with a powerful project controls platform solution within as little as 3 months.

We have an enviable reputation for our integration skills, both within the Oracle Primavera toolset and in linking Primavera P6 or Unifier with third-party products.

We support clients through User Acceptance Testing to a successful launch and our holistic solutions approach also encompasses cloud hosting for SaaS / PaaS and IaaS solutions and ongoing Primavera application support for clients throughout their deployment.

# DEVELOPING SKILLS

**RPC supports the professional development of clients at all levels, with a full range of training courses in the Oracle Primavera toolset, learning support that extends beyond the classroom and a suite of generic project management skills courses.**

Our training is delivered as public or private courses, hosted at our training facility in Leeds, at a client's own location or online, via Microsoft Teams. Our Learning Consultancy Service offers bespoke learning solutions and tailored course content for clients who require something different from the standard, scheduled course content.

In addition to these conventional training options, we have a growing resource of flexible, on-demand e-Learning content for Oracle Primavera P6 and the Oracle Primavera Unifier solutions we support.

We also offer a range of Project Controls skills courses to complement our Oracle Primavera training, such as Risk Analysis, Forensic Delay Analysis and NEC4 training.

# RPC LEARN

**RPC Learn brings you a learner-led eLearning programme based on 30 years of Oracle Primavera P6 training experience. Gain in-depth instruction, video demonstrations, and exclusive bonus content - all with 12 months of access. Complete the course to earn CPD credits and a certification badge.**

RPC Learn offers a comprehensive eLearning platform designed to fit your learning style and schedule. Whether you want to complete the full P6 Fundamentals course or focus on specific areas like Initiation, Planning, or Execution & Control, you have the flexibility to learn anytime, anywhere, on any device.

## **Bespoke training you can make your own**

Looking for tailored training for your team? We also offer bespoke courses – hosted by us on your own learning management system – customised to suit your team's needs and your organisation's branding if required. Get in touch to find out more about our enterprise offering.

# INNOVATION AND EXCELLENCE

RPC is proud to support the Project Controls industry and its professionals, and to share our expertise and innovations whenever possible in presentations, webinars, conferences and industry events.

- Sponsorship of industry-leading conferences, such as Project Controls Expo
- Contributor to industry publications, such as *XplorexIT* and *Construction News*
- Host of our own annual RPC Primavera User Conference

You'll find a wide range of insightful blogs and informative webinars on our website. Click [here](#) or on the images on the right to read more.
